**PETITIONER AND
OWNER:**

The Legend of Brandybrook Estates, LLC.
N8 W22520-L Johnson Drive
Waukesha, WI 53186

LOCATION:

Lot 2 Certified Survey Map No. 5162, part of the NE ¼ of Section 3, T6N, R18E, Town of Genesee. More specifically, the property is located at W304 S1806 Brandybrook Road, containing approximately 15.1 acres.

PRESENT ZONING CLASSIFICATION:

A-5 Mini Farm District.

PRESENT LAND USE:

Single-family residence with a detached accessory building.

PROPOSED ZONING:

R-1 Residential District.

PROPOSED LAND USE:

Eleven lot residential development.

PUBLIC HEARING DATE:

June 24, 2019.

PUBLIC REACTION:

Many people spoke in favor of the rezone for the following reasons:

- Employment opportunities
- Increase in tax base
- Increase in funding for schools and school district
- Increase in property values
- Family community that the Legend provides

Many people spoke in opposition to the rezone for the following reasons:

- Concerns regarding traffic, lights and noise
- Opposition to change of rural community
- Septic system concerns

- Timing, road use and future development concerns
- Question as to whether road entrance could be changed

The development team responded to several questions and concerns. They indicated that they are proposing landscaping to screen the development and address concerns about lights and noise. The project engineer responded that the location of the proposed private road intersection cannot be moved.

TOWN PLAN COMMISSION:

On July 22, 2019, the Town Plan Commission, unanimously recommended approval of the rezoning request with conditions.

TOWN BOARD ACTION

On August 12, 2019, the Town Board approved the rezoning request by a vote of 4 to 1, as conditioned.

COMPLIANCE WITH THE WAUKESHA COUNTY DEVELOPMENT PLAN AND THE TOWN OF GENESEE LAND USE PLAN:

The local and county plan designations for the areas of the property outside of the environmental corridor were amended in 2019 to the Low Density Residential category (20,000 square feet to 1.4 acres per dwelling unit) category, subject to landscape buffers being provided along the north side of the property. A small area remains planned in the Primary Environmental Corridor category, although it is possible that an in-field determination will reduce the acreage in that category. The proposed density of more than one dwelling unit per acre complies with plan requirements. The proposal to develop the site utilizing conservation design techniques also furthers plan recommendations for clustered development in rural settings.

OTHER CONSIDERATIONS:

The subject 15-acre property is located immediately to the north of the Legend at Brandybrook golf course. The property abuts the Village of Wales. The property currently contains a single-family residence that will be retained and a large outbuilding that will be razed. There are two golf course-oriented developments within the immediate area. Brandybrook subdivision to the southwest contains single-family homes on lots that are generally approximately $\frac{3}{4}$ acres in size. Regency Fairway Villas are located to the northwest of the property. To the north and east of the property, lot sizes become larger and the setting is more rural residential with parcels generally ranging from three to twenty acres.

The proposal is to rezone the property from a five-acre minimum lot size district to a category that allows for a density of just under one acre per dwelling unit with a conservation design, contingent upon town approval of a planned unit development. The submitted concept plan (see Exhibit "A") shows eleven single-family condominium lots with substantial open space along Brandybrook Road and on the far east side of the property. Septic systems for the smaller proposed condominium lots are proposed to be located within open space areas near Brandybrook Road. The road is proposed to be private. The concept plan shows a cart path connection from the proposed development to the golf course.

The town and county plan commissions carefully considered neighborhood input during the deliberations for the plan amendment for this property early this year. Both entities reviewed a concept plan that was part of the application package and both ultimately approved a land use plan change. The rezoning proposal brings forward a concept plan that is very similar to the concept submitted as part of the plan amendment request. The main difference is that the current proposal contains one less lot than what was originally proposed.

The town has conditioned their approval upon a number of conditions, as detailed in the attached town ordinance no. 19-5. The conditions require that the development contain no more eleven units and that future development must be consistent with the presented concept plan. The conditions also require town review and approval of a planned unit development and condominium plat.

STAFF RECOMMENDATION

It is the opinion of the Planning and Zoning Division Staff that the request be **approved** as conditioned by Town of Genesee Ordinance No. 19-5. The rezoning is consistent with land use plan recommendations and brings forward considerable open space in a unified layout. The Planned Unit Development and condominium plat review processes will allow the town to consider appropriate landscape plan treatments as pledged by the developer and conditioned by the county previously as part of the land use plan amendment for the property.

Respectfully submitted,

Jason Fruth

WHEREAS, the Town Board finds that this change to the Town Zoning Code is not a down zoning ordinance because it does not decrease the development density of land and it does not reduce the permitted uses of land, and therefore the super majority requirement of Section 66.10015, Wisconsin Statutes, does not apply to this ordinance; and

WHEREAS, the Town Board of the Town of Genesee having determined that all procedural requirements and notice requirements have been satisfied, having given the matter due consideration, and having based its determination on the effect of the granting of such rezoning on the health, safety and welfare of the community, and the immediate neighborhood in which said use will be located, and having given due consideration to the municipal problems involved as well as the impact on the surrounding properties as to noise, dust, smoke and odor, and others, hereby determine that the rezoning will not violate the spirit or intent of the Zoning Code for the Town of Genesee will not be contrary to the public health, safety or general welfare of the Town of Genesee, will not be hazardous, harmful, noxious, offensive and will not for any other reason cause a substantial adverse effect on the property values and general desirability of the neighborhood as long as the operation is conducted pursuant to the following conditions and in strict compliance with the same and the rezoning is consistent with the Town of Genesee Comprehensive Plan.

6 needs of employers and employees commuting between Waukesha County and its neighboring
7 counties; and
8

9 WHEREAS, the Waukesha County Transit System is administered by the City of Waukesha
10 (Waukesha Metro) and funded with a combination of Waukesha County tax levy and revenues
11 from the State of Wisconsin Department of Transportation and the Federal Transit
12 Administration; and
13

14 WHEREAS, the Waukesha County Transit System includes Route 906, which is a commuter
15 service that runs weekdays from the Mukwonago, Big Bend, and New Berlin park-and-rides to
16 the downtown Milwaukee business district; and

42 service, effective December 1, 2019, with the last day of actual service on November 29, 2019.

FISCAL NOTE

APPROVE TERMINATION OF WAUKESHA COUNTY TRANSIT
ROUTE 906, EFFECTIVE DECEMBER 1, 2019

This ordinance would approve the termination of a contract providing transit service for route 906, which provides weekday commuter service between the village of Mukwonago, the village of Big Bend, the city of New Berlin, and downtown Milwaukee. The contract would cease on December 1, 2019 with the last day of actual service on November 29, 2019 (due to December 1st being a Sunday).

The 2020 County Executive Proposed Budget assumes the discontinuation of route 906. Ridership on this route has declined for several years, while operating investment per ride has increased. By discontinuing route 906, the county is able to prioritize higher-utilized routes while maintaining the county's support at \$867,700 (in the 2020 proposed budget).

Recognizing the unfavorable trend in ridership and the elimination of the service in the proposed 2020 budget, this ordinance is requesting that the route be discontinued before the end of 2019 to help reduce costs in the current year. According to the contracted transit administrator (Waukesha Metro), this route costs \$10,000 to \$15,000 per month in county tax levy support during 2019.
