-  **Waukesha County Comprehensive Community Services (CCS) for Youth**
- 
-  Community-based Mental Health and Substance Use Psychosocial Rehabilitation Services
- 

CCS Is Different Than Traditional Outpatient Treatment.

It is designed to assist an individual whose mental health symptoms may impair their ability to function and/or participate in daily living.

What is CCS and What Do We Offer?

- Service Facilitation
- Screening and Assessment
- Service Planning
- Diagnostic Evaluations
- Psychotherapy
- Individual and/or Family Psychoeducation
- Substance Use Treatment
- Peer Support
- Physical Health Monitoring
- Medication Management
- Individual Skill Development and Enhancement
- Wellness Management and Recovery/Recovery Support Services
- Employment-related Skills Training and Support

Program Eligibility

- A child or adolescent who is a resident of Waukesha County.
- A child or adolescent who has a need for a more intensive delivery of services than traditional outpatient services.
- A child or adolescent with mental health and/or substance use issues whose symptoms interfere with one or more major life activities, as identified by the CCS assessment.
- A child and family who are willing to participate in services to assist with identified needs.

Program Steps

OUTREACH:

Family receives an outreach call from outreach specialist. Briefly discuss program and eligibility.

MEETING & APPLICATION:

Child or adolescent and their parent or guardian, meet with a service facilitator to review the program and complete an application.

ASSESSMENT:

Within 30 days of the application, additional meetings are scheduled to complete a functional screen and comprehensive assessment to identify strengths, needs, and priorities for services and treatment. A recovery team is then identified and formed.

RECOVERY PLAN:

Within 30 days of application, the recovery team convenes to determine recovery goals. The service facilitator prepares a recovery plan. This plan outlines all of the treatment and services that will be provided.

MONITOR AND RE-EVALUATION:

Services outlined in the recovery plan will continue to be coordinated by the service facilitator. Progress is reevaluated at least every 6 months by the client and the recovery team.
