Mental Health Outpatient Services includes Clinic services, Crisis Services, Comprehensive Community Services (CCS), Community Support Program (CSP), and Targeted Case Management (TCM).

The amounts billed for services may be different from the prices listed here based on standard medical billing procedures and practices (e.g., 15-minute increments, hourly increments, fixed fees), add-on services, and limitations on length of appointment. Fees for standard medical billing procedures are based on the above rates.

All of the above services (except Juvenile Detention Services and Family and Adolescent services) are billed to all third-party payers, including Medicare and Medicaid, before being billed to the client or his/her responsible party. All Medicaid and Medicare deductibles and copayments are the client's responsibility. Upon complying with DHS 1.05(4) regulations and the provision of all necessary financial information, the client's liability for charges may be reduced or limited to a monthly minimum payment.

Clients provided services in the Huber Jail Facility will be informed regarding fees upon entering the program.
