MENOMONEE PARK

Menomonee Park is part of the Waukesha County Park System. This 8,500-acre, natural resources-based system consists of diverse landscapes, high-quality natural areas, a variety of trails, and beautiful lakes, ponds and waterways.

The park is located in the Villages of Lannon and Menomonee Falls and offers countless recreational opportunities. It features 470 acres of rolling fields and shrublands, high quality maple woods, wetlands, and a 16-acre quarry pond with a large beach.

From 1880-1900, a stone quarry operated on the property, and several historical remnants of the operation still exist in the park, including an old stone crusher and a railroad spur connection that is now a link to the Bugline Trail. The Bugline is a 16-mile paved trail than runs from Menomonee Falls to North Lake. There are also many miles of unpaved trails within the park. In the winter, many of the trails are also available for cross-country skiers and snowshoers.

The "Best Woods" are some of the highest quality woods in the entire park, full of spring wildflowers and calling birds in summer. There are also three artesian wells in the park.
