Frequently Asked Questions

Why can't we include scrap metal, plastic bags, hazards, garbage, and tangles in the recycling bin?

These items damage equipment or cause serious fires. These materials can also risk recycling haulers' and facility workers' safety which can result in serious injury. Lastly, items that don't belong in the cart are costly to dispose of and can make other recyclables less valuable. For more information about proper disposal of these unaccepted materials, please visit our website.

How do I dispose of paint?

Latex paint should be dried and thrown in the trash. Oil based paints are hazardous waste and should be brought to a household hazardous waste collection site for safe disposal. Visit our website for locations.

Who do I call with questions about my collection service?

Contact your City, Town, or Village or your trash/recycling hauler with questions about collection service.
