

Restriction Map for Horse Operation

Following this process will create a map that designates areas where manure spreading is restricted or prohibited on your property.

Go to Wisconsin Manure Management Advisory System at <http://www.manureadvisorysystem.wi.gov/>

Open SnapMaps 590/NR243 Maps

Print (or save to your computer) the two-page informational handout "SnapPlus Basic Concepts". This will help to explain the terms used for 590 maps

Open SnapMaps 590 and NR243 Restriction Maps

Zoom into Waukesha County

Zoom into your property

Map Legend:

Base Layer – select Roads

Restriction Layers – select all except for the three CAFO related layers

Water Layers- select the first four (DNR Wetland, Perennial Streams, Intermittent Streams, and Waterbodies)

Select PDF Creation

Create PDF of Map; insert title (landowner name)

Select Landscape layout

Click done

Open your PDF Restriction Map to your computer; print or save to your computer

Email map to water@waukeshacounty.gov. Land Resource Division staff will keep a copy of your map for your horse operation. A copy is forwarded to the Planning & Zoning Division, if required as part of a Conditional Use Permit, or to the requesting municipality.
