

County Shoreland & Floodland Protection Ordinance Draft Amendments- 3/4/21

Create Section 39.1 to read as follows:

SECTION 39.1 THOMAS FARM PLANNED DEVELOPMENT DISTRICT

a. STATEMENT OF INTENT

This district is intended to accommodate the development of an attractive mixed use neighborhood that complements the surrounding area. The District provides opportunities for the development of a variety of residential, senior living, office and open space uses in a cohesive environment. A heightened level of planning is required, including but not limited to, open space requirements, design standards and landscaping to ensure an attractive development. The district is intended to achieve the following:

- Provide for mixed residential, senior living and office uses in an attractive, integrated environment which is complimentary to the surroundings.
- Preserve the natural environment by conserving environmental corridor areas, wetlands and tree lines designated for preservation as depicted upon Map 39.1(b).
- Provide for landscape buffers along Glen Cove Rd., Elmhurst Rd. and Golf Rd. to ensure harmony with surrounding neighborhoods
- Provide for a trail network that links existing neighborhoods, individual development sites and the Lake Country Trail.
- Mitigate traffic impacts by splitting access between both local roads and the county trunk highway system.
- Provide a heightened level of site design and connectivity between development sites.
- Provide a broad range of potential living unit options that will accommodate residents of varying ages.

b. APPLICABILITY

This district is available to be applied solely to the Thomas Farm which is comprised of approximately 152 acres. The Thomas Farm boundaries are depicted on Map 39.1(a). The lands are located in the Town of Delafield, north of C.T.H. "DR", east of Glen Cove Rd., west of Elmhurst Rd. and generally south of the Lake Country Trail. Prior to the Planned Development District designation being applied to any lands, the lands must be rezoned to the Thomas Farm Planned Development District and a General Development Plan must be approved subject to the procedural requirements of Section 39.1(c)(2).

c. PROCEDURE

1. Pre-petition meeting: Prior to submitting a petition for rezoning to the Thomas Farm Planned Development District, the applicant shall meet with Town and County staff to discuss a concept plan.
2. Rezone petition- General Development Plan (GDP). Following the pre-petition conference, the applicant shall file a petition with the Town and County for a rezone to the Thomas Farm Planned Development District. The application shall include GDP materials as specified below.

The GDP shall include the following information that shall be reviewed and approved by the Town Plan Commission and Board and Waukesha County:

- A. A master development plan for the entire Thomas Farm Planned Development District must be presented. District use zones are depicted upon Map 39.1(a). Because Zone 1 will be limited to single family low density use only, Zone 1 may be developed without compliance

- with Items 3-7 and 9 below. All open space and natural resource requirements for Zone 1 shall be adhered to if Zone 1 is developed before an overall master development plan is approved.
- B. An open space and natural resource protection plan must be presented that complies with Section (j).
 - C. A traffic impact analysis must be submitted to the Waukesha County Department of Public Works and Town Engineer for review and approval.
 - D. A road access plan shall be provided that shows access points to Golf Road, Elmhurst Road and Glen Cove Road. Access points shall be sited in a manner to ensure safety with consideration of site distance and intersection spacing. The road network shall provide expedient access to higher intensity uses from Golf Road to the greatest degree practicable in order to minimize traffic impacts to Elmhurst Road and Glen Cove Road. The road plan shall provide for logical connections to future development phases.
 - E. Adequate sewer capacity must be demonstrated. All development shall be served by public sewer. Written documentation shall be submitted by the Lake Pewaukee Sanitary District documenting that the development can be successfully served by municipal sewer.
 - F. All State well code and groundwater supply provisions shall be complied with by the developer. The Southeastern Wisconsin Regional Planning Commission and State Department of Natural Resources shall be consulted with regards to anticipated water table impacts of any planned private water supply. Adequate water supply must be demonstrated. The developer must demonstrate that a private water supply will not adversely affect private wells in the area or natural resources. Alternative water sources may be considered by the Town Plan Commission and Board and the County Zoning Administrator.
 - G. A preliminary stormwater plan must be reviewed and approved by the Waukesha County Land Resources Division for any phases of the project that will be brought forward in conjunction with the rezone request. The plan shall show which development phases are expected to be served by on-site stormwater facilities along with those anticipated to be served by shared stormwater facilities.
 - H. A bike and pedestrian plan shall be provided. The plan must include a west connection to Brookstone Circle and a northeast connection to the Lake Country Trail. Trail segments shall be constructed in conjunction with the development of the respective development phase and shall connect to existing or future adjacent phases. Individual phases of the project shall provide connections to the main planned trail artery that will generally connect the neighborhoods to the west and the Lake Country Trail to the northeast. It is recommended that sidewalks be considered on a minimum of one side of all internal roadways. Where a pathway provides the same movement opportunity, a pathway may substitute for a sidewalk.
 - I. The Town Plan Commission and Board and the Waukesha County Zoning Administrator shall determine active recreation space requirements. An active recreation area that is a minimum of 0.5 acres in area, such as a small neighborhood pocket park, would be desirable and may be required based upon the nature and intensity of the proposed uses. The Town Plan Commission and Board and County Zoning Administrator shall be consulted to determine the location, size, components, ownership and maintenance of the recreation area. The recreation area may be located within a designated natural resource protection area, provided that a tree inventory is provided to demonstrate that the disturbance will not unduly harm mature trees.

3. Specific Development Plan

If rezoning and a General Development Plan have been approved, an application for Specific Development Plan approval shall accompany a Site Plan application. The Town Plan Commission and Board and the County Zoning Administrator shall review and approve the following detailed plans as part of the Specific Development Plan review process.

- A. Detailed site plan
- B. Architectural plans
- C. Landscape plans
- D. Grading plans
- E. Preliminary Stormwater Plan for any phases that were not reviewed as part of the General Development Plan.
- F. Final Stormwater Plan
- G. Natural resource protection and open space plan.
- H. Parking plans
- I. Signage plans
- J. Traffic plans. If proposed uses or densities differ from those that were assumed in the traffic study as part of the General Development Plan, a revised traffic study shall be prepared and reviewed and approved by the town and county.
- K. Bike and pedestrian plan in accordance with Section 39.1(c)(2)(H). A bike and pedestrian plan shall be provided and must include a west connection to Brookstone Circle and a northeast connection to the Lake Country Trail. Trail segments shall be constructed in conjunction with the development of the respective development phase and shall connect to existing or future adjacent phases. Individual phases of the project shall provide connections to the main planned trail artery that will generally connect the neighborhoods to the west and the Lake Country Trail to the northeast. It is recommended that sidewalks be considered on a minimum of one side of all internal roadways. Where a pathway provides the same movement opportunity, a pathway may substitute for a sidewalk.
- L. Lighting plan. All lighting shall be shielded by cut-off type fixtures. A photometrics plan shall be required and shall demonstrate zero light spillage at property lines. The Town Plan Commission may relax this requirement if unique circumstances can be demonstrated such as spillage occurring between two adjacent office use parcels.
- M. Public hearings. Multi-family residential developments, senior uses and office uses are permitted use types but a Specific Development Plan application for said uses shall require a public hearing. The public hearing will provide for town residents and neighbors the opportunity to comment on development design and aesthetics. Notice of the public hearing shall be published and distributed in accordance with the provisions of Section 42. County Planning & Zoning Staff will jointly conduct the public hearing with the Town Plan Commission and Board.

d. **OFFICE, SENIOR USE AND MULTIPLE FAMILY USE DESIGN AND SITE**

REQUIREMENTS: In order to foster economic growth and ensure an attractive and vibrant neighborhood, the following design and site requirements shall be applied to Office, Senior Use and Multiple-family Use projects. These requirements will be reviewed as part of the Specific Development Plan and site plan/plan of operation process, where applicable. Any exterior color or material change to a building must comply with the provisions of this subsection and be reviewed and approved as part of the site plan/plan of operation process.

1. Siting: Proposed Development projects must be compatible and complementary to the surrounding neighborhood. Architecture, landscaping and building siting must be designed to create an attractive and cohesive environment that contributes positively to the existing setting.
2. Building Form: Maximum permissible Building Height and massing must be complementary to adjacent uses and surrounding neighborhoods and are subject to the provisions of Section 39.1(h) and 39.1(i).
3. Building materials: Building designs shall utilize a variety of aesthetically compatible exterior building materials on all sides visible to the public. Aluminum and vinyl siding are prohibited. Aluminum and vinyl soffits and fascia behind gutters are permitted. Building materials shall terminate or meet at logical locations

4. Building design: A variety of aesthetically compatible building styles and articulations are encouraged throughout this district. Long, monotonous facades or roof designs shall not be permitted. Features such as awnings, windows, entry doors, projections, material changes, or other articulations are required to break up large masses. Frivolous ornamentation should be avoided.

Architectural treatments such as window trim and mullion widths and depth shall be consistent around all four (4) sides of the building.

5. Multi-family design: The Town Plan Commission shall establish building and garage orientation parameters as part of the development review process. It is preferred that garage doors be located on side façades or that a mix of front facing and side entry garages be provided for condominium and senior use buildings containing up to four (4) dwelling units.
6. Roof structures: If the roof is flat, the termination of the flat roof shall be concealed with a parapet. Decorative cornices must reflect the time period of the building. HVAC units and other rooftop mechanicals/utilities are required to be screened from view.
7. Accessory Building Design: Accessory Buildings shall be designed so that materials and form are complementary and compatible to the Principal Building.
8. Architect consultation: The Town Plan Commission and Board and Waukesha County shall have the option and authority to consult with a licensed architect for comments regarding building form and design to ensure an aesthetically pleasing design that is compatible with surrounding uses and neighborhoods and that is consistent with the requirements of this Section 39.1(d). The Town and County have the authority to charge the Applicant for all expenses related to the architect's review. The Applicant will be notified of the estimated review time and expense prior to any action being taken.
9. Building color: No neon or fluorescent colors are permitted. The exterior color palate of all Buildings must be compatible with the surrounding neighborhood.
10. Building entrances: An inviting entrance to Buildings shall be located on the primary street side.
11. Landscaping: Landscape treatments shall be provided to enhance architectural features, improve appearance, screen parking areas and Structures, reduce impervious surface, provide shade and enhance the streetscape.
12. Gathering/Open Spaces: Meaningful communal gathering and green spaces provided in accessible settings must be an integral part of any new development with a multi-family residential or senior use. Examples include public or private courtyards, plazas, patios, terraces, community gardens, areas with planters and/or benches, and rain gardens. These spaces should enhance the pedestrian experience or provide gathering/recreational space for residents. The amount of communal gathering and green spaces shall be proportional to the lot size and intensity of the intended use.
13. Pedestrian facilities: Pedestrian facilities must connect buildings and uses within the proposed development in order to provide safe and convenient access for residents and visitors.
14. Exceptions: Any proposed modifications to the provisions of this Section 39.1(d) shall be reviewed and approved through the site plan/plan of operation process. The Applicant shall justify why the Development cannot or should not comply with the provisions based on the purpose and intent of this district. Exceptions must be approved by the Town Board and the County Zoning Administrator upon recommendation of the Town Plan Commission.

e. **USE REGULATIONS**

Six (6) use zones have been established within the district. The use zones are depicted on Map 39.1(a). The uses provided for in each use zone are identified in the table below. All uses, with the exception of platted single-family residential uses, are subject to review and approval of a site plan and plan of operation. The table denotes those uses that require a public hearing. Any use within the district that would later be deemed a Legal Nonconforming Use because of subsequent changes in zoning regulations shall be limited to the provisions of Section 3(o).

Any modifications to the boundaries of the district, use zones or regulations of this Section require a zoning amendment in accordance with Section 41 of this Ordinance.

Senior uses are inclusive of skilled nursing, memory care, assisted living, independent senior, and independent free-standing units such as villas. The primary occupants of these use types are age 55 and over but others needing long term care may also occupy these unit types, provided that there is a medical need for care in a senior use facility and provided that care for those under 55 is an incidental use.

	Allowable Uses & Densities						
	Low Density Residential single family or single family condos (max. one unit/acre)	Medium Density Residential single family or condos (max. 4 unit buildings & 3 units/acre)	High Density Residential single family (max. 4 unit buildings & 4 units/acre)	Condominiums (max. 4 unit buildings & 4 units/acre)	Senior Uses (max. 12 units/acre)	High Quality Multi-family (max. 6 units/acre)	Office
Zone 1	Permitted	-	-	-	-	-	-
Zone 2	Permitted	Permitted	-	-	-	-	-
Zone 3	Permitted	Permitted	-	-	-	-	-
Zone 4	Permitted	Permitted	Permitted	Permitted-public hearing if any building contains > 2 units	Permitted*-public hearing	Permitted-public hearing	Permitted-public hearing
Zone 5	Permitted	Permitted	Permitted	Permitted-public hearing if any building contains > 2 units	Permitted*-public hearing	-	Permitted-public hearing
Zone 6	Permitted	Permitted	Permitted	Permitted-public hearing if any building contains > 2 units	Permitted*-public hearing	-	-
Detached garages or sheds may be permitted for all use types except single-family residential and office uses, subject to the review and approval of the Town Plan Commission.							
Group daycare facilities may be considered as a Conditional Use within Zones 4-6, subject to the provisions of Section 4, provided that the daycare use is incidental to another permitted use that is the principal occupant of a building							
Incidental support uses such as healthcare rehabilitation or haircare services within a senior facility and convenience uses such as cafés, group daycare or fitness centers may be permitted within senior, multi-family or office use buildings, subject to the approval of the Town Plan Commission.							

f. **DENSITY**

1. **Single-family and Multiple-family residential densities:** The table below identifies maximum residential and senior use densities.

Maximum Dwelling Units Per Acre

Zone	Single family or condo units/acre	Multi-family units/acre	Senior units/acre
Zone 1	1	-	-
Zone 2	3	-	-
Zone 3	3	-	-
Zone 4	4	6	12
Zone 5	4	-	12
Zone 6	4	-	12

g. **BUILDING LOCATION**

1. Offsets and Road Setback for external roadways: Minimum Road Setback requirements for structures are specified in the tables below. The base setback line shall be measured thirty-three (33) feet from the centerline of a local road or 75’ from the center point of a cul-de-sac. Setbacks are measured from the base setback line. For all streets or highways for which the ultimate width has been established by the Highway Width Ordinance of Waukesha County, the Base Setback Line shall be located at a distance from the centerline equal to one-half such established width as designated on the “Established Street and Highway Width Map of Waukesha County.”

A. Road Setbacks for County Trunk Highway DR (Golf Rd.), Glen Cove Rd. and Elmhurst Rd.

Required Offsets and Setbacks from external roadways

Road frontage	Minimum Road Setback	Side Offset	Rear Offset
CTH DR	35’	15’	20’
Glen Cove Rd.	75’	Not applicable	Not applicable
Elmhurst Rd.	35’	Not applicable	Not applicable

2. Offsets and Road Setbacks for internal roadways. The table below contains setback requirements for internal public roads and side and rear offsets. Setbacks from private roads shall be determined by the Town Plan Commission and Board and the County Zoning Administrator as part of the Specific Development Plan review:

**Required Setbacks from public internal development roadways and Offsets
(excludes CTH DR, Elmhurst Rd, Glen Cove Rd.)**

Use type	Minimum Road Setback	Side Offset	Rear Offset
Single Family-Low Density (one dwelling unit/acre)	35'	15'	20'
Single Family- Medium & High Density (> one dwelling unit/acre)	25'	10'	20'
2-4 unit condos-side entry	10'	10'	20'
2-4 unit condos- front entry	20'	10'	20'
Multi-fam. ≥ 4 units/ac. and up to 6 units/ac.	10'	10'	20'
Office	30'	15'	20'
Senior (4 units or less/building) side entry	10'	10'	20'
Senior (4 units or less/building)- front entry	20'	10'	20'
Senior (>4 units/building)	30'	15'	20'

A. Landscaping within Road Setback Area: In all office, multiple-family residential developments containing four or more units per acre and senior use developments, landscaping is required between the building and the road. The amount and type of landscaping required will be determined through the site plan/plan of operation review process.

3. Shore, Wetland and Floodplain Setback/Offset:

Wetland and Floodplain setbacks/offsets within the Planned Development District are subject to the below standards.

A. Shore and Wetlands Setback/Offset:

- i. Seventy-five (75) feet minimum.
- ii. Additional regulations and exceptions in Section 3(h)2 apply.

B. Floodplain Setback/Offset:

- i. Thirty-five (35) feet minimum from the 1% regional flood elevation.
- ii. Additional regulations and exceptions in Section 3(h)2 apply.

h. HEIGHT/BULK REGULATIONS

- 1. Principal Building Height: Building height shall be measured from lowest exposure to the highest peak or part of a roof.

Maximum Building Height**

Building Type	Maximum roadside height (in feet)	Maximum exposure (overall height), in feet	Maximum Base Height
Single family	35'	43'	25'
Condominium – 2-story zones	35'	43'	25'
Condominium – 3 story zones	47'	47'	Determined by Town Plan Commission & Board and County Zoning Administrator
Multi-family > 4 units per building	47'	47'	Determined by Town Plan Commission & Board and County Zoning Administrator
Office- 3-story zones	47'	47'	Determined by Town Plan Commission & Board and County Zoning Administrator
Office- 2-story zones	35'	43'	Determined by Town Plan Commission & Board and County Zoning Administrator
Senior- 3-story zones	47'	47'	Determined by Town Plan Commission & Board and County Zoning Administrator
Senior- 2-story zones	35'	43'	Determined by Town Plan Commission & Board and County Zoning Administrator
<ul style="list-style-type: none"> • Town Plan Commission may consider exceptions for lower level garage entries. 			
<p>** The regulations and exceptions from Section 3(i)(1)(A) apply to all Structures located within seventy-five (75) of the Ordinary High Water Mark of a Navigable Waterway.</p>			

2. Accessory Building Height: Maximum overall height is limited to eighteen (18) feet.
3. Number of Stories:
 - A. Maximum: All buildings shall comply with the number of stories limitations that are depicted upon Map 39.1(c).

i. AREA REGULATIONS

1. Floor Area and Building Footprint:
 Minimum Floor Area shall be measured at each level from the outside edge of wall to outside edge of wall. Basements, exterior balconies, unenclosed porches, and garages shall not be included in the minimum Floor Area calculation. The minimum floor area requirements established in this section supersede the minimum floor area requirements of Section 3(j).

A. Minimum Floor Area required for Single-family Dwellings:

- i. One-story structure, 1,200 square feet.
- ii. All other structures: Area must comply with requirements of Section 17.03 5 (A) of the Town of Delafield Municipal Code.

B. Minimum Floor Area required for multiple-family residential units:

- i. 700 square feet per one-bedroom unit.
- ii. 800 square feet per two-bedroom unit.

- iii. 1000 square feet per three-bedroom unit.
 - iv. 100 additional square feet per each additional bedroom.
- C. Minimum Floor Area for senior units shall be determined by the Plan Commission through the site plan review process.
- D. Maximum Building Footprint permitted:
 Building footprint is defined as the surface area of all roofed structures on a lot, except for the area of a roof overhang that measures twenty-four inches (24") or less in depth.

Use Type	Maximum Footprint
Single Family (Low Density- maximum one dwelling unit/acre)	17.5%
Single Family (Density of more than one unit/acre)	25%
Office	25%
Multi-family	25%
Senior	25%

2. Lot size. Minimum lot area and average lot width shall comply with the requirements of Town of Delafield Municipal Code Section 17.04(5)(R)(i)(2) which are referenced below. Minimum average lot width is the average horizontal distance measured between side lot lines at the established base setback line and the rear lot line or ordinary high water mark of a navigable waterway. The County Zoning Administrator shall determine where to measure lot width of an irregular shaped lot.

	Minimum Lot Size	Minimum Average Lot Width
Zone 1	20,000 square feet	100 feet
Single-family Use within Zones 2-6	10,000 square feet	75 feet
Office Use	20,000 square feet	100 feet
Multi-family Use	To be determined by Plan Commission via Site Plan review	To be determined by Plan Commission via Site Plan review
Senior Use	To be determined by Plan Commission via Site Plan review	To be determined by Plan Commission via Site Plan review

j. OPEN SPACE

1. The table below depicts the percentage of a total development site that must be conserved in open space. The specified requirements are unique for single family development as compared to other use types. Open space for single family residential development areas must be provided in commonly held outlots. Within office, senior and multi-family uses, all area that is devoid of structures, parking areas, driveways, roads, patios, decks and pools is considered open space.

Use Type	Percent of Development Site
Single Family (\leq 1 unit/acre)	30%
Single Family ($>$ 1 unit/acre)*	30%
Office	35%
Multi-family less than or equal to 4 units/ac	40%
Multi-family $>$ 4 but not exceeding 6 units/ac	45%
Senior Use	45%

*Open space preservation credits may be transferred from Zone 2 to Zone 3 to satisfy the minimum open space requirement for Zone 3. This transfer of open space credit is available between these zones because Zone 2 contains a large area of Environmental Corridor (EC) and preservation of the EC alone in Zone 2 is expected to well exceed the minimum 30% open space threshold.

2. Natural Resource Preservation

All areas of Environmental Corridor (EC), wetlands, tree lines and other wooded areas that are designated for preservation on Map 39.1(b) shall be preserved as described on said map. Map 39.1(b) shows approximated boundaries of these resources. Field determined and surveyed boundaries of the EC shall constitute the regulated boundaries if determined in the field to be larger than the generalized boundaries depicted on Map 39.1(b). Field determined and surveyed boundaries of wetlands shall constitute the regulated wetland boundaries. EC and wetlands shall be conserved within outlots to the maximum extent practicable when located on properties developed for single family use. Any EC or wetland area to be located on a private single-family residential lot or on any multi-family, senior or office use property shall be conserved via preservation restrictions that must be recorded in the Waukesha County Register of Deeds Office.

Limited disturbance of EC and wetlands to accommodate road crossings and recreational paths or features shall be permitted pursuant to approval by the Town Plan Commission and County Zoning Administrator. Removal of invasive species such as Buckthorn and Honeysuckle is permitted, however, large-scale removal of invasive species shall only be permitted provided that a restoration plan is submitted to and reviewed and approved by the Town Plan Commission and County Zoning Administrator. If invasive or undesirable species dominate a tree line, replacement plantings may be required if cutting or removal is proposed. Incremental removal of said vegetation may be required to preserve the overall integrity of the tree line. The Town Plan Commission and County Zoning Administrator may authorize the removal of Box Elder or other undesirable trees from tree lines, but native deciduous trees shall be required to be planted at a minimum size of 2" diameter at breast height with number and location of replacement trees to be determined by site conditions, overall landscape plan submitted and subject to review of the Town Plan Commission and County Zoning Administrator.

3. Landscape Buffers

Landscape buffers shall be provided along the existing external roadways (Glen Cove Rd., Elmhurst Rd., Golf Rd.) as specified on Map 39.1(b). A landscape plan shall be prepared for the respective segment of the landscape buffers as phases are developed. Landscaping shall include a mix of trees, shrubs and ground cover vegetation. Those segments along Glen Cove Rd. and

Elmhurst Rd. that are in view of adjacent residences shall contain tree planting that will provide an effective visual screen. Berms may also be used to assist in providing visual separation. The landscape plans shall be reviewed and approved by the Town Plan Commission and County Planning & Zoning Administrator. Landscape buffers shall be contained within commonly held outlots where the subject lands are proposed for single-family subdivision use. Plantings and berms shall not obstruct vision at intersections. Specified landscape buffers shall be provided immediately adjacent to the base setback line for each road where a buffer is required. Lands that must be dedicated to achieve compliance with the Street and Highway Width Map for Waukesha County shall not be counted in contributing to the required buffer width.

k. SIGNAGE REGULATIONS

Signage regulations shall be in accordance with Section 17.08 (Signs) of the Town of Delafield Municipal Code with the following exceptions. Free standing signage is limited to monument style only, with the exception of small wayfinding signage. Signage within individual project phases shall be complimentary to signage in other phases.

l. PARKING REGULATIONS

The parking regulations of Section 17.09 (Parking) of the Town of Delafield Municipal Code shall be adhered to with the following additional requirements. Parking demand projections shall be supplied by the developer to aid in analyzing the appropriateness of flexing the requirements of Section 17.09 of the Town of Delafield Municipal Code.

With the exception of the lands fronting Golf Road, consideration should be given to locating part or all of parking areas to the side or rear of buildings.

For multi-family uses, there shall be a minimum of one (1) underground or enclosed parking space per dwelling unit, although the Town Plan Commission may establish a higher threshold. In addition, where surface parking will be provided, parking shall be consolidated in pods between buildings, to the greatest extent possible.

Parking areas for proposed senior uses shall be approved by the Town Plan Commission and the County Zoning Administrator.

Screening. All parking areas must be screened from abutting properties with vegetation that is a minimum of three feet in height at time of planting and landscaping shall be provided between parking areas and roadways with a landscape plan being subject to review of the Town Plan Commission and the County Zoning Administrator. If the landscaping areas are within established vision corner easements, the height of vegetation may be reduced to comply with easement requirements.

Landscape Islands. Any parking lot that contains twenty (20) or more stalls shall provide interior site landscaping. The end of every parking aisle shall typically have a landscaped island and no more than fifteen (15) parking spaces shall be provided between landscape islands unless this requirement is waived because of unique conditions. Landscape islands shall generally be a minimum of 325 square feet in area for double parking rows or 160 square feet in area for single parking rows.

m. IMPERVIOUS SURFACE

The amount of impervious surface on a lot shall be limited as specified within the table below. The following surface types shall count as impervious surface: buildings, porches, roads, driveways, patios, decks, sidewalks, retaining walls and any other hard surface.

Use Type	Impervious Surface Maximum (as % of lot area)*
Single Family- Low Density (Max. one unit per acre)	30
Single Family- Medium Density (Max. three units per acre)	40
Single Family- High Density (Max. four units per acre)	40
Multi-family less than or equal to 4 units/ac	60
Multi-family > 4 but not exceeding 6 units/ac	55
Office	65
Senior	55

*Per State shoreland zoning law, any riparian lot and any lot that is completely within 300' of the ordinary high water mark of a navigable stream is subject to all regulations and exceptions of Section 3(t)

- n. **DUMPSTER ENCLOSURES:** All dumpsters shall be enclosed with solid fencing or walls and shall be screened with landscaping. Materials used for the dumpster enclosure shall be similar and compatible with the main building architectural materials.
- o. **OUTSIDE STORAGE:** Outside storage is strictly prohibited.
- p. **ROAD LAYOUT:** Internal streets must be designed in a manner to discourage cut-through traffic from adjacent neighborhoods to ensure that access points to Golf Rd. are not unduly burdened with congestion. Traffic calming measures (landscape bump outs, visually conspicuous crosswalks, narrow streets, etc.) may be required in order to provide for safe and efficient traffic circulation. A minimum of two access points to Golf Road must be provided. Access points must also be provided to Elmhurst Road and Glen Cove Road. Access location points are subject the considerations of a traffic impact study and subject to the approval of the Town and Waukesha County. The roadway serving Zone 1 shall be an extension of Crooked Creek Rd. terminating in a cul de sac within that zone.
- q. **CUL DE SAC LENGTH.** The planned extension of Crooked Creek Rd. will terminate in an extended cul de sac. Crooked Creek Rd. is authorized to exceed 1000'. Any other cul de sac that will terminate more than 1000' feet from its nearest outlet shall be reviewed and approved by the Town Plan Commission and Board, with input from the Town Highway Superintendent and Lake Country Fire and Rescue department to ensure that adequate emergency access is available.
- r. **DEVELOPMENT AGREEMENT**
The Town may require the developer to enter into a development agreement that specifies the duties and obligations of both parties with respect to development in the district.

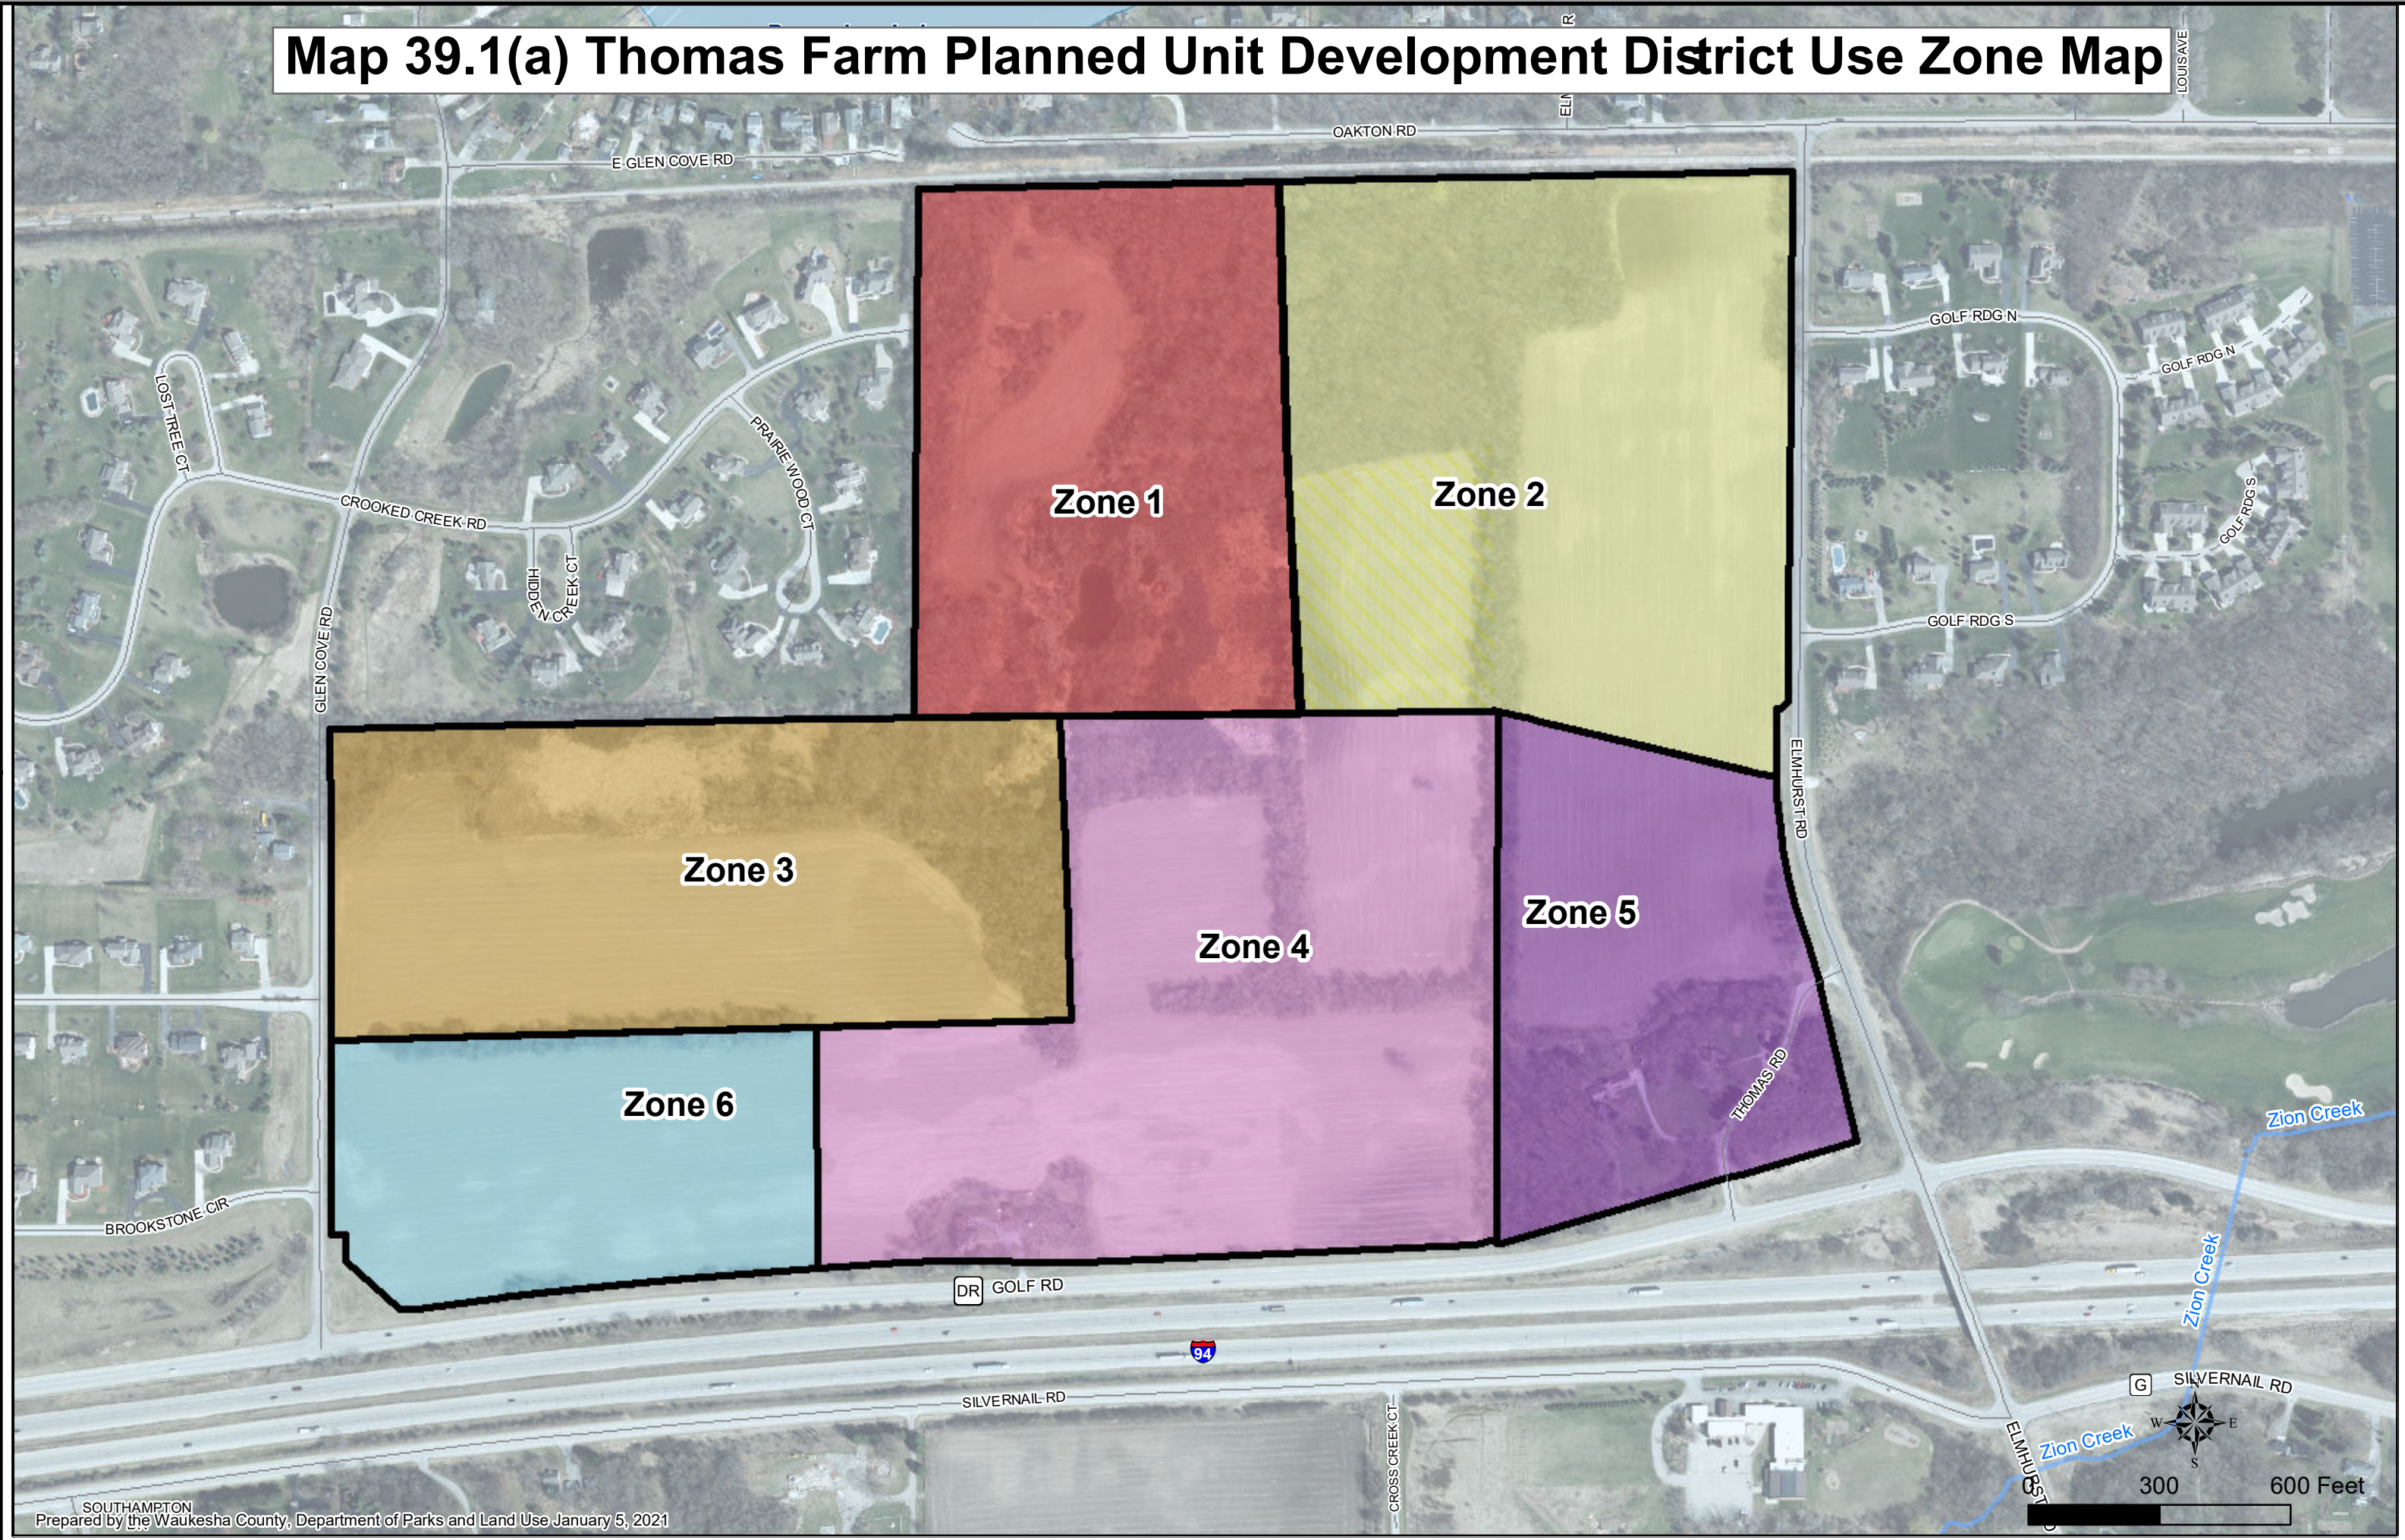

Proposed Section re-numbering:

- Repeal and Re-create Sections 38-42 to re-number the Sections as follows:
 - Section 38 Board of Adjustment is re-numbered as Section 40.
 - Section 39 Changes and Amendments is re-numbered as Section 41.
 - Section 40 Public Hearings is re-numbered as Section 42.
 - Section 41 General Administration is re-numbered as Section 43.
 - Section 42 Validity is re-numbered as Section 44.

- Create Section 38 (Reserved)
- Create Section 39 (Reserved)
- Amend all cross references to existing Sections 38-42 to reference new section numbers.
