## EDUCATION

### **ADRC HEALTH AND WELLNESS PROGRAMS**

The ADRC of Waukesha County offers a variety of health and wellness workshops throughout the county. All workshops are led by trained leaders to ensure program fidelity. Most of the programs offered meet the highest-level criteria as determined by the National Council on Aging and the Administration for Community Living. High-level evidence-based prevention programs are based on scientific research and are proven to have positive outcomes for safe and healthy aging. In addition to the workshops, the ADRC, in partnership with Public Health, offers a series of monthly one-hour presentations on various health-related topics called *A Cup of Health*.

#### **A Cup of Health**

A monthly series of health-related presentations held throughout Waukesha County. Presentation topics vary each month and are usually one hour in length.

#### **Boost Your Brain and Memory**

Dementia is not a normal part of aging. This program offers a whole person approach to brain health. Physical activity, emotional wellness, intellectual activity, nutrition, spirituality, and social connectedness are all covered in this 8-week workshop.

#### **Healthy Living with Chronic Pain**

Led by trained leaders in a small group setting, the program focuses on helping you feel better, have more control, and do the things you want to do. Each week features various topics focused on your mental, physical, and emotional well-being. Learn, share your experiences, practice new skills, and help others in the process.

#### **Healthy Living with Diabetes**

Healthy Living with Diabetes is an evidence-based workshop for adults of all ages who have type 2 diabetes, pre-diabetes, or live with someone who does. In just 6 weeks, you learn to take charge of your health and get back to doing the things that matter to you.

**Mind Over Matter: Healthy Bowels, Healthy Bladder (MOM)**

MOM is a program designed to help older women build the skills and confidence they need to prevent or improve incontinence symptoms. Incontinence is a common health problem for women and can lead to other problems such as falls, depression, social isolation – even hospitalization or a nursing home stay. But incontinence can be prevented, improved, or even cured – without medicine or surgery – by making some simple changes.

**Savvy Caregiver**

This program is intended to train families and others about the unfamiliar role they face as caregivers of a relative or friend with Alzheimer’s disease or dementia. Participants gain knowledge and confidence to set and achieve caregiver goals. This 12-hour program is delivered in 2-hour sessions over a 6-week period.

**Stepping On**

One in four people aged 65 or older has a fall each year. Don’t be one of them. Stepping On can help you avoid a dangerous and costly fall so you can keep doing the things you love to do. Local guest experts discuss vision, medications, strengthening and balance exercises, and community safety practices. Stepping On has been researched and proven to reduce falls by 31%.

**ELECTED OFFICIALS**

(Listing is current as of print date: October 2023)

**How to Communicate with your federal and state legislators:**

There are a number of ways to communicate with your elected officials. Contacting your Representative or Senator, or any public official, shows that you care enough about an issue to take the time to convey its importance to people who can help you make a difference. Mail service to the Capitol is significantly delayed due to increased security measures, so it is no longer the best way to quickly reach your elected officials. There are other ways to communicate such as phone, fax, email, personal visits, and attending public forums.

**Identify your State Legislators:**

**Identify your member of Congress:**

Websites ..... [www.house.gov](http://www.house.gov), or [www.senate.gov](http://www.senate.gov)  
E-mail for the White House may be sent to:  
[president@whitehouse.gov](mailto:president@whitehouse.gov).

## Written Correspondence

- **Identify yourself as a constituent:** Lawmakers give more weight to correspondence received from their district or state.
- **Bill numbers and issues:** In the first paragraph identify the bill number and/or the issue on which you want action and state what action you want, if appropriate.
- **Make your message personal:** Tell your own story about how it affects you, your family and community.
- **Ask a question (and get a response!):** By asking a question and seeking a response, in your fax or email, you show that you expect to continue the dialogue with the elected official.
- **Keep it to one page:** Try to deliver your message in one page and be sure your name and return address are clearly printed.

## Visiting a Public Official

- **Prepare:** Plan what you want to say and stick to the issue. Keep your message simple, direct, and brief. Before you visit, learn as much as you can about the issues and the elected official with whom you will meet.
- **Strength in numbers:** Go with a group of people. Designate a spokesperson and an order of speaking.
- **Be on time.**
- **Always say thank you:** Remember to thank the legislator/staff before beginning the rest of your message.
- **Keep your message as focused as possible:** Be specific about bills you would like the legislator to vote in favor of or against. Try to present your key message/topic within five minutes.
- **Know how the issue affects you and/or your community.**
- **Tell your personal story:** You are unique! In telling your story you are conveying your message in the best possible way.
- **Talking to staff is useful:** Meeting with the staff person can be just as useful—or more so—than meeting with the elected official. It is important to educate staff members on your position because they will communicate your message to the official.

- **Bring materials:** Bring educational materials to leave with the legislator for future reference. Be sure to include your business card or contact information.

**ESTATE RECOVERY PROGRAM (WISCONSIN)**

**Estate Recovery Program (Wisconsin)..... (608) 264-6755**  
The Wisconsin Estate Recovery Program seeks repayment for the cost of certain long-term care services paid for on behalf of members by Medicaid, BadgerCare Plus, COP, or non-Medicaid Family Care or any services provided by WCDP. Recovery is made from the estates of members, from the estates of their surviving spouses, from certain non-probate property, and from liens filed on their homes. Recovery is made after the assets of the member have been accounted for and higher priority expenses have been paid per Wis. Stat. 859.25.

The Money recovered is returned to the programs and used to pay for care for other members. Long-term care services for which the program seeks repayment include, but are not limited to, nursing home services and home care services.

Wisconsin is required by state and federal laws to recover the costs of certain benefits paid for on behalf of health care members. These laws are designed to recover assets from those who got benefits.

Note: Members who are age 55 or older, living in the community, and not receiving services related to long-term care or any services through WCDP will not be affected by estate recovery.

## HOUSING RESOURCES AND SENIOR PLACEMENT SERVICES

Companies that help families identify appropriate placement for senior housing options at no charge, may have limited options, providing referrals to only those facilities who are under contract. Please be aware that some agencies may charge a referral fee to the facility that you ultimately decide upon. This may result in an “application charge” to the consumer.

## **INDEPENDENT LIVING**

Independent Senior Living facilities offer housing designed for older adults. Most facilities have recreation rooms / common areas to socialize and some have organized activities and also offer meal plans that can be purchased. Although these communities are designed for independent older adults, individuals can arrange for supportive services. Some of these facilities may offer below market rates based on income requirements. The following is a list of potential questions to ask of a new landlord or housing complex. This is not a complete list and not all these questions will apply in each individual rental situation.

These questions can be used for Independent or Subsidized housing complexes.

- Are there units available? If not, is there a wait list? How long is the waitlist?

**LOW INCOME / SUBSIDIZED HOUSING**

Subsidized housing, sometimes referred to as low-income housing, provides immediate relief to tenants in the form of a rent subsidy. Tenants apply to receive a subsidy in which they generally pay a pre-determined percentage of their gross adjusted income. The remaining rent is paid directly to the landlord as a subsidy. There are many types of subsidies available and their characteristics are unique to each project/building. The listings to follow are all project-based vouchers meaning the subsidy is tied directly to the building and is not portable. Applications can be completed online, or contact the apartment complex directly.

**The following is a list of apartments that receive some form of housing assistance. Please contact each building to learn more about available apartments, waitlists and pet policies.**

## **RESIDENTIAL CARE APARTMENT COMPLEXES**

Assisted living options are classified as a **Residential Care Apartment Complex (RCAC)** or “Assisted Living”. An RCAC is a type of “assisted living” where five or more adults reside.

Apartments must each have a lockable entrance and exit; a kitchen, including a stove (or microwave oven); and individual bathroom, sleeping and living areas. This living option also provides to persons who reside within the facility, a maximum of no more than 28 hours per week of the following services:

- **Supportive Services:** Activities related to general housekeeping, transportation to access community services and recreational activities.
- **Personal Assistance:** Services related to activities of daily living, e.g., dressing, eating, bathing and grooming. The most common meal plan utilized by tenants of the RCACs is that consisting of two meals per day. Some provide 3 meals.
- **Nursing Services:** Health monitoring, medication administration and medication management.
- **Emergency Assistance:** An RCAC shall ensure that a tenant’s health and safety are protected in the event of any emergency and shall be able to provide emergency assistance 24 hours a day.

RCACs are **not** for those persons who have a **physician activated** Health Care Power of Attorney unless they will reside within an apartment with a competent spouse. RCAC’s are also **not** for people who are so medically complicated that they require a higher level of daily care. Certified RCACs are inspected annually, via unannounced surveys and complaint investigations.

## **COMMUNITY BASED RESIDENTIAL FACILITY**

A **Community Based Residential Facility (CBRF)** is a place where five or more adults reside in a community setting. Services provided include room and board, supervision, support services, and may include up to three hours of nursing care per week. CBRFs range in size from 5 to 257 beds. CBRFs can admit any of the populations listed in the legend below. The minimum age requirement for residing in a CBRF is 18 years old. State licensing specialists inspect CBRFs every two years via unannounced surveys. However, a facility may be visited between these inspections if there are any complaints received by the department.

**CLASS A Ambulatory (AA)** - serves only residents who are ambulatory, mentally and physically capable of responding to an electronic fire alarm and exiting the facility without any help or verbal or physical prompting.

**CLASS A Non-Ambulatory (ANA)** - serves residents who are ambulatory, semi-ambulatory or non-ambulatory but only if they are mentally and physically capable of responding to an electronic fire alarm and exiting the facility without any help or verbal or physical prompting.

**CLASS C Ambulatory (CA)** - serves only residents who are ambulatory but one or more of whom are not mentally capable of responding to an electronic fire alarm and exiting the facility without any help or verbal or physical prompting.

**CLASS C Semi-Ambulatory (CS)** - serves only residents who are ambulatory or semi-ambulatory but one or more of whom are not physically or mentally capable of responding to an electronic fire alarm and exiting the facility without help or verbal or physical prompting.

CLASS C Non-Ambulatory (CNA) - serves only residents who are ambulatory, semi-ambulatory or non-ambulatory but one or more of who are not physically or mentally capable of responding to an electronic fire alarm and exiting the facility without help or verbal or physical prompting.

## **ADULT FAMILY HOMES**

**Adult Family Homes (AFHs)** are ideal for persons who seek small congregate care settings. An AFH is defined as “a place where one to four adults who are not related to the operator reside and receive care, treatment, or services that are above the level of room and board and that may include up to seven hours per week of nursing care per resident.” AFHs can admit any of the populations listed in the legend below. The minimum age requirement for residing in an AFH is 18 years. State licensing specialists inspect AFHs every two years, via unannounced surveys. However, a facility may be visited between these inspections if there are any complaints received.

## **PUBLICLY FUNDED LONG TERM CARE PROGRAMS**

### **General information:**

Long-term care programs provide people with the assistance they need in order to remain as independent as possible. Whether assistance is needed as a result of aging, physical disability, or intellectual/developmental disability, long-term care programs can help meet a wide range of needs. Services available through these programs can include personal care, housekeeping, job coaching, and nursing. Long-term care programs offer these services in a variety of settings, such as in the home, workplace, group home, residential facility, or nursing home.

There are multiple long-term care programs offered in the State of Wisconsin. One of the main goals of these programs is to help people access the services and supports they require to meet their needs. The State of Wisconsin contracts with Managed Care Organizations, which are agencies responsible for facilitating the services offered through long-term care programs. Individuals participating in any of the long-term care programs may be required to pay a cost share in order to remain enrolled in the program.

Long-term care offers services to the following populations with long-term conditions:

- Frail older adults (65 years or older)
- Adults with physical, intellectual, and/or developmental disabilities (18 years or older)

Please note that children with physical and/or intellectual/developmental disabilities can start planning the transition to adult services as soon as they turn 17 years and 6 months.

**FAMILY CARE**

Family Care is a comprehensive long-term care program that offers individual case management. Once enrolled in Family Care, you would be assigned a care team consisting of a care manager and a registered nurse. Your team would assist you in developing an individualized service plan that focuses on your long-term care needs.

Waukesha County offers a choice of three Managed Care Organizations that facilitate Family Care services: Community Care, Includa, and My Choice Wisconsin.

For more information about Family Care, please call the ADRC or go to: [www.dhs.wisconsin.gov/lc/lcindex.htm](http://www.dhs.wisconsin.gov/lc/lcindex.htm)

**FAMILY CARE PARTNERSHIP**

Family Care Partnership provides a full range of long-term care, primary, acute, and preventive care delivered through interdisciplinary teams that include a registered nurse, licensed social worker, nurse practitioner, rehabilitation and recreation therapists, dietitian and doctor who work together to ensure your social, personal and medical care needs are met.

The Family Care Partnership program is offered by two Managed Care Organization in Waukesha County: Community Care and My Choice Wisconsin.

For more information about Family Care Partnership, please call the ADRC or go to:

[www.dhs.wisconsin.gov/wipartnership/index.htm](http://www.dhs.wisconsin.gov/wipartnership/index.htm)

**PACE (PROGRAM OF ALL-INCLUSIVE CARE FOR THE ELDERLY)**

PACE is offered to individuals aged 55 years and older. The program is offered by one Managed Care Organization: Community Care. PACE integrates long-term care, health and medical services, and prescription drug management. Medicaid and Medicare drug services are managed by PACE which means that participants do not need a separate Medicare Part D plan. A PACE care team includes a registered nurse, PACE Center Coordinator, home care coordinator, physical/occupational/recreational therapist and a dietician.

**IRIS (INCLUDE, RESPECT, I SELF DIRECT)**

IRIS is Wisconsin’s Medicaid long-term support Self-Directed Waiver Program. It is available in Wisconsin with the same eligibility requirements as Family Care and Family Care Partnership. In IRIS, you direct your own services and supports rather than being managed by an MCO. The State contracts with an Independent Consultant Agency (ICA) and a Fiscal Employment Agent (FEA) that are available to assist you in managing your care plan. The ICA oversees a group of Independent Consultants (IC) who help you to plan for the support and services you need within the cost of your allocated budget (which is determined by the Long-Term Care Functional Screen). Everyone in IRIS will receive help from a Fiscal Employer Agent (FEA). The ADRC will offer you options and you will choose which fiscal employer agent you want to work with. The fiscal employer agent does background checks on workers you hire, processes payroll, manages the amount of federal and state taxes to take out of your workers’ checks, and helps with other employer tasks.
