The six additional products were sold exclusively by Big Acres Meats' retail store located in Prescott, Wisconsin prior to January 24, 2025.

This is a Class II recall, which has been expanded based on evidence collected during routine recall effectiveness checks. The additional products identified contained undeclared allergens, dairy and/or wheat, as they were observed devoid of ingredient statements. More information on the U.S. Department of Agriculture (USDA) recall classifications is available below and on USDA's website at fsis.usda.gov.

No illnesses have been reported as a result of consuming these products. Anyone with signs or symptoms of a foodborne allergic reactions or sensitivities should contact their doctor. Consumers who have these products can discard them or return them to Pierce County Meats Inc. Consumers and media with questions about this recall can contact Jeff Farris, Pierce County Meats Inc., at (715) 273-4741.

USDA Recall Classifications

Class I	This is a health hazard situation where there is a reasonable probability that the use of the product will cause serious, adverse health consequences or death.
Class II	This is a health hazard situation where there is a remote probability of adverse health consequences from the use of the product.
Class III	This is a situation where use of the product will not cause adverse health consequences.
